Peer Review Checklist: Writing a Winning Abstract

Instructions: Read your partner's abstract and respond to the following questions. Provide constructive feedback to help them improve clarity, structure, and impact.

1. Purpose & Research Problem

- Is the research topic or problem clearly stated?
- Is the significance of the study briefly indicated?
- Comments:

2. Methods

- Are the methods or approach described briefly but clearly?
- Is it easy to understand how the research was conducted?
- Comments:

3. Results

- Are the main findings or outcomes presented?
- Are the results specific and measurable (if applicable)?
- Comments:

4. Conclusion

- Does the conclusion reflect the implications or impact of the findings?
- Is it relevant and concise?
- Comments:

5. Clarity & Style

- Is the abstract well-organized and easy to follow?
- Are there any vague or confusing phrases?
- Does the abstract avoid jargon and overstatements?
- Comments:

6. Overall Effectiveness

- Does the abstract effectively summarize the project?
 - Would you be interested in reading the full paper based on this abstract?
 - General Feedback / Suggestions for Improvement:
